

In the Works Summer 2026

Watch our progress as we work on projects that make the property more accessible, informative, and enjoyable. Join us in person or on line, and feel free to reach out with suggestions.

We are an exempt organization as described in section 501(c)(3) of the Internal Revenue Code

Starry Nights and **Solar Bathroom** Projects.
We are working with GLAS, Badger, and the City to develop a roll-top observatory and a rest stop.

Kestrel Box. Working with the Avian Committee, we've positioned a nesting box donated by the Lakeland Audubon Society.

Wednesday Walks. Walk with us and talk about the property, plans, or life. The journey is determined by the group.

Second Saturday Clean Ups.

Join us at 10am to improve paths and make new friends as we work to clean the property.

Disc Golf Course. Together with the White River Rippers, we'll raise funds to develop a course concept as land-use planning moves forward.

Avian Garden. Enjoy the native garden by the stream developed by the Avian Committee with a plant grant to attract birds and pollinators.

Front Gardens. See the native sun and shade plants donated and cared for by our board and volunteers; help us weed and water.
